

DRIVE YOUR BUSINESS TO HIGHER PROFITABILITY WITH HPC—WITH HPE AS YOUR PARTNER!

Hyperion Research recently has published a study¹ that found that enterprises on average saw an ROI of \$47 of profit for every dollar invested in high performance computing (HPC). For many enterprises those “systems of innovation” are increasingly business-critical for their Digital Transformation—driving faster time-to-market, improved customer experiences, and increased profitability.

The ROI of HPC is high, but sectors experience varying levels of profit from one dollar invested in HPC.²

Drive your business smarter with end-to-end HPC clusters from HPE. The **new** way for faster innovation.

DIGITAL ROAD TRIP Destination: Faster innovation

Outdated technology

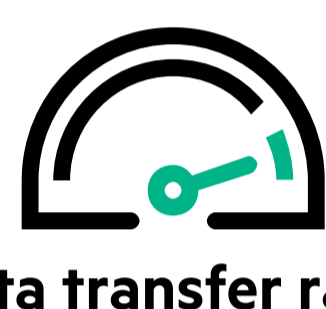

not able to keep up with the demands of the business

- Legacy management software
- PCIe Gen 3 compute nodes
- PCIe Gen 3 parallel storage
- 56 or 100 Gbps networks

Leading edge route

- Modern management software
- PCIe Gen 4 compute nodes
- PCIe Gen 4 parallel storage
- 200 Gbps networks

DOUBLE

data transfer rate

Roadside emergency!

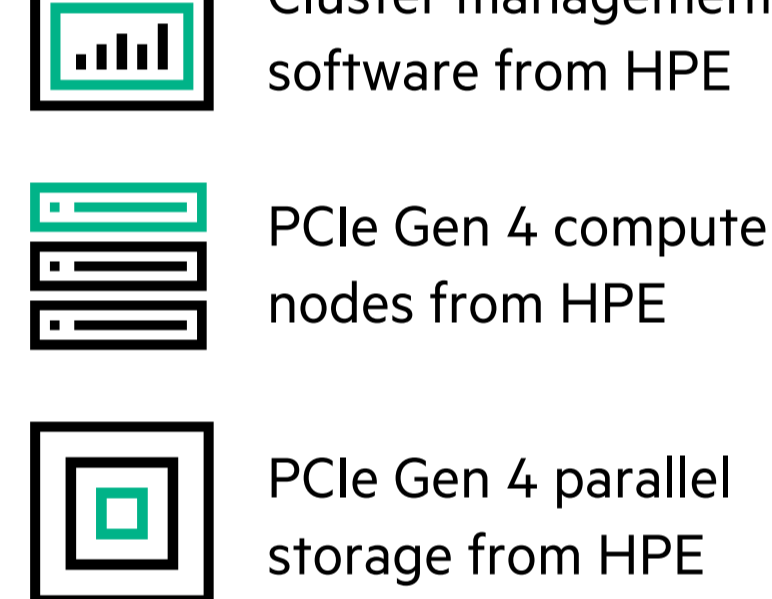

Long stop

- Finger pointing of a group of vendors
- System-wide issues hard to pinpoint
- Often longer time to problem resolution

Smooth sailing

- Single point of accountability for full stack
- Fast problem identification and resolution
- Fast restoration of SLAs

Pit stop for delivery

Public cloud

- Data security concerns
- Performance concerns
- Cost of data movement

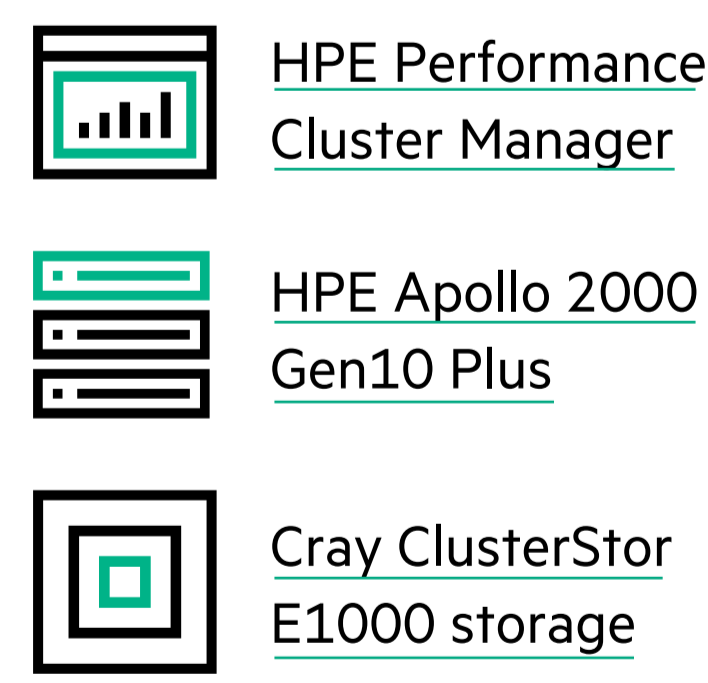

Classic sourcing
(Purchase, Financing)

HPE GreenLake
(As a service)

YOU HAVE ARRIVED!

The unmatched performance, reliability, and financial flexibility of end-to-end HPC clusters from HPE lets you innovate in a smarter way.

- **Innovate faster** with end-to-end PCIe Gen 4 performance for your servers and your storage.
- **Reduce risk** with end-to-end accountability of HPE for faster restoration of Service Level Agreements.
- **Align spending to business goals** with end-to-end sourcing options.

WHY HPE FOR HPC?

- **#1 HPC vendor worldwide** with over 10% distance to #2 vendor in market share²
- **Global scale** with a multibillion dollars annual revenue stream²
- **Intellectual property** for HPC across the full stack (software, compute, interconnect, and storage)
- **Strong bench** with over 1,000 HPC experts worldwide
- **Innovative services** with [HPE Accelerated Migration](#) and [HPE GreenLake](#)
